- Fits to all major brands
- Stalk rolls with 5 knife system available with or without stalk choppers

**CRESSONI**  
CORN HEAD

## 1 Stalk rolls with 5 knives

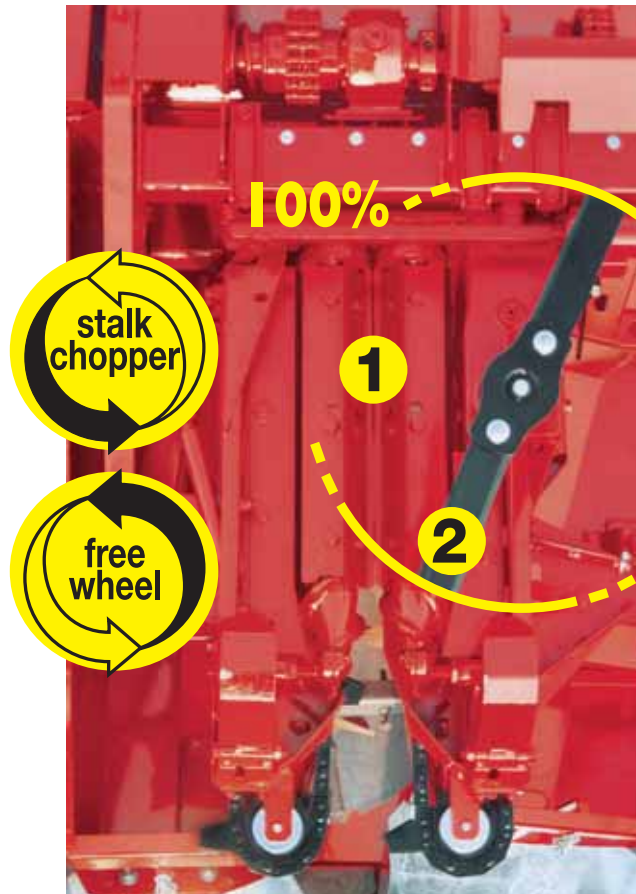

**+25%**  
Stalk precut

- The best stalk precut, to obtain the best stalk-chopping quality in the market
- Requires less power
- Larger diameter, higher speed and lower RPM for better stalk pulling than old style rolls in the market

## 2 Stalk chopper

- Free wheel: the latest technology to avoid stalk chopper shocks
- The low power absorption stalk chopper mounted on each unit is easily engaged and disengaged.

The forward position of the stalk choppers cover **100%** of the rolls' pulling area. This system assures an optimal chop of the stalks in small pieces starting at a minimum safety distance of 3 inches from the ground.
